PROFESSIONAL EXPERIENCE

UNIVERSIDAD CES | March 2022 - June 2023

- General physician, faculty member at the School of Medicine, and coordinator and developer of MediCES, an educational project based on gamification.
- Responsible for the course "Groups and Environments III" within the Comprehensive Health Care Pathways in the Cardiovascular and Cerebrovascular division. Faculty member for the virtual component of the Medical Semiology course. Supported the development of a curriculum proposal based on Entrustable Professional Activities, as well as logistical activities for the Medicine Program and the Prehospital Care Technology Program.
- Developer of MediCES, which, together with faculty members from the School of Medicine and the interdisciplinary team of CES Virtual, supports the design, creation, recording, editing, methodological evaluation, and launch of gamified courses focused on expected learning outcomes and the development of Entrustable Professional Activities through the acquisition of badges and certifications. To date, virtual classrooms are under development for Medical Semiology, Radiology, Care for Victims of Sexual Violence, Dermatology, Pediatrics, General Surgery, Semiology in Prehospital Care Technology, and Medical Procedures and Devices in Prehospital Care Technology.

- General physician in outpatient care at the COMFAMA Comprehensive Health Centers in Rionegro, Envigado, and City Plaza, responsible for the management of patients with chronic diseases and for prevention and health promotion programs, including growth and development, family planning, cardiovascular risk, comprehensive health care pathways, asthma, and COPD. I also served as a frontline clinical and training physician for the care of patients with COVID-19.
- Promoted to Medical Leader of the Academic Management, Quality, Innovation, and Projects area. Responsible for the teaching-care agreement with Universidad CES, continuing medical education for physicians within the organization, strengthening and implementation of “Teledermatology” in healthcare centers across the Aburrá Valley, Eastern Antioquia, and Urabá regions. Also responsible for educational strategies and improvement plans in medical care, coordination of the audit group, preparation of medical performance reports for the entire organization, and coordination of the “Lucía – Live Medical Counseling” strategy.
